Where Engagement Begins

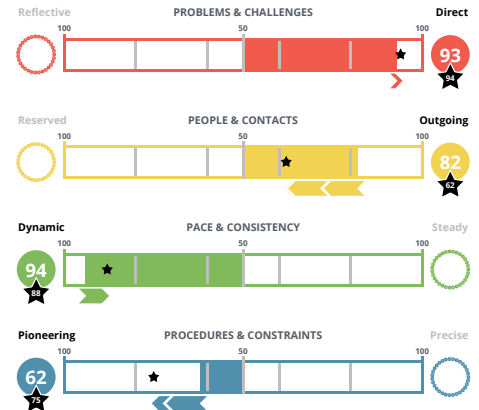

Getting to Know the “How” of Samuel

The following report is designed to help Samuel become more self-aware and aware of others in order to raise levels of engagement. People tend to be more engaged when comfortable and connected to the activities and people they encounter. This page offers insight into HOW Samuel prefers to do what he does.

Samuel should exhibit more patience and ask questions to make sure that others have understood what he has said. To improve engagement, Samuel may need to adapt to the need for some to digest information before making a decision. To create more engaging conversations with Samuel, ask his opinion. He may get better results by presenting information in a form that can be easily understood by most people. He may selectively withhold his true feelings through friendly conversation.

Identifying Obstacles

Getting Samuel Out of his Own Way

When faced with an obstacle, people can either press on (or attack) or take a path of least resistance. Self-awareness and awareness of others are key in persevering over or through obstacles instead of becoming disengaged. This page assists Samuel in identifying some of his potential limitations.

Samuel may...

Dislike routine work or routine people.

Resist participation as part of the team unless seen as a leader.

Keep too many balls in the air.

Make "off the cuff" remarks that are often taken personally.

Not be aware of how the different pace of others may affect his plan.

Have trouble delegating and just does it himself.

Be so concerned with the big picture that he overlooks important details.

Blame, deny and defend his position, even if it is not needed.

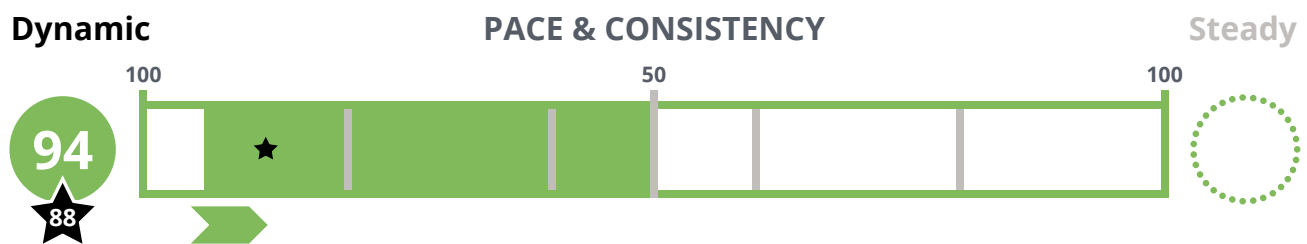

Tip: Weaknesses can be turned into strengths at any time. An obstacle can be an opportunity to accomplish something you never thought you could before.
